

Pletina de borde y paneles fotovoltaicos

Technical drawing of a roof structure. The main view shows a cross-section of a gable roof. The roof deck is made of corrugated metal, indicated by the hatched pattern. Below the deck is a wooden truss system. A vertical support post is shown, with a circular detail view showing a close-up of the joint between the post and the truss. The detail view shows the post passing through the truss, with a green line indicating the centerline of the post. Labels 'ch' and 'par' are visible on the right side of the drawing.

patología asociada: no se observa
